From Colleen

GDPE is excited about our unique opportunity for Small Grants for faculty (see below for more info). We are looking forward to seeing great faculty ideas that will improve our program.

Students, our Spring call for Small Research Grants is also out now including this year's RMAIS opportunity.

It is time to start thinking about the Front Range Student Ecology Symposium. It is a great opportunity for the GDPE community to come together and also when we hold our recruiting events. Abstract submission information is below.
