

**GRADUATE DEGREE
PROGRAM IN ECOLOGY
COLORADO STATE UNIVERSITY**

March 4th, 2019

From Colleen

Thanks to all of you who participated in and organized FRSES. It was inspiring to see the great research and enthusiastic presentations of our students. It made me personally happy to be part of such a wonderful program. It also helped underscore great characteristics of GDPE to our prospective students like high quality research, the many opportunities for students, and a sense of community. Thanks also to all of the students and faculty who helped with our recruitment efforts and in communicating to these prospective students what GDPE is all about. We hope to have many of them joining us on campus in the Fall.

Reminder that next week our last Visiting Distinguished Ecologist, Jessica Gurevitch, will be here. Both talks will have a mixer at 3:30 pm, followed by the seminar at 4:00 pm in the LSC North Ballroom. A reception for Dr. Gurevitch will be held at Ruth Hufbauer's house after the seminar on March 13. Dr. Gurevitch will speak on Wed., Mar. 13 about "Landscape demography: Heterogeneity and scale in the expansion, stability and extinction of populations and: A few words about the potential ecological impacts of geoengineering" and on Thurs., Mar. 14 about "Thinking in meta-analysis: Practical and Philosophical Issues. We look forward to you joining us. If you are able to join the evening reception on Mar. 13, we would especially appreciate it. The reception for Jim Grace was under-attended, and these evening receptions are great opportunities to interact with our Distinguished Ecologists in an informal setting.

GDPE

Thanks to everyone who helped or participated in this years GDPE Recruitment Visit! The event was very successful and it was great meeting prospective students.

Congratulations to our own Magda Garbowski for being chosen as one of the next Vice President for Research Graduate Student Fellows!

Congratulations to GDPE faculty who were awarded GDPE faculty small research grants: Cini Brown et al., Root imaging tool to be available to GDPE within the Plant Growth Facilities; Paul Evangelista, Development of self-guided Google Earth Engine lessons in applied remote sensing to support ecological research; Melissa McHale, GDPE Urban Sustainability fellowships and networking. Thanks to all who applied and were willing to develop projects to enhance GDPE.

Save the dates for our upcoming [Distinguished Ecologist visits](#): Jessica Gurevitch Mar. 13 & 14 plus our [RMAIS speaker](#) Corrine Moss-Racusin, on May. 1.

Let us know if you've gotten a paper accepted, won an award, or received a grant by emailing [Jennifer Neuwald](#).

DEADLINES

[Obtaining Signatures](#)

[Degree Deadlines](#)

[Student Forms](#)

[GDPE Grad Student Survey](#)

ECOLOGY & CSU EVENTS

[Sustainability Leadership Fellow](#): The School of Global Environmental Sustainability (SoGES) seeks applications from Colorado State University advanced Ph.D. students and early career postdoctoral fellows to be a 2019-2020 Sustainability Leadership Fellow.

Registration and abstract submission are now open for the 2019 conference on the Ecology and Evolution of Infectious Diseases (EEID), to be held at Princeton University, New Jersey, USA, from 10-13 June. Learn more [here](#)!

Geospatial Graduate Students Club: Anyone interested in geospatial applications is welcome. Click [here](#) to learn more!

Mar 6th 12:00-1:30 pm LSC Room 386: A Career in Industry - Perspectives from Alumni panel session sponsored by the Graduate Professional Development Series. This will include GDPE alum Katie Langin.

Mar 7th 4:30-5:30pm: School of Global Environmental Sustainability "A low-carbon virtual lecture with Katharine Hayhoe". Click [here](#) for more information!

March 9th 10am-6pm: TEDxCSU is visiting the Lory Student Center. Check out multiple guest speakers and innovative exhibitions. More information can be found [here](#).

RESOURCES

R-user group. Mondays 9-11 AM Plant Science C021. [Sign up](#) for updates or to contact the group. [Questions](#).

Coming Out, Being Out, and Questioning Support Group. Email [Jessie Charbonneau](#) for details.

[CSU Writes](#): Show up & write. Drop-in writing sessions provide faculty and graduate students a designated time and place to "show up & write."

[CSU Health Network Therapy](#): CSUHN has individual and group counseling as well as workshops and are available for students for free.

[Data and Donuts - Data Management Made Tasty](#): Good data management practices are becoming increasingly important in the digital age. Learn how you can improve your data management.

GRANTS / JOBS

[Postdoc Position](#): Postdoctoral Scientist wanted at the University of Washington.

[Research Associate](#): Research Ecologist position is available for the Agricultural Research Service.

[PhD Position](#): In Evolutionary Ecology in Switzerland. Send one PDF with CV, Letter of Motivation and contact details of 3 referees to [Blake Matthews](#).

[Grants Available](#): Denver Audubon is offering grant opportunities for research and education projects supporting Colorado non-game wildlife.

[Hydrology Assistant Interns](#): Sierra Nevada Network & Monitoring Program.

[Landscape Ecologist](#): The Bureau of Indian Affairs (BIA) is developing a programmatic NEPA analysis for conducting forest management and fuels treatments/prescribed fire on approximately 650,000 acres within 44 counties (20 tribal jurisdictions) in eastern Oklahoma. Contact [Tasha Carr](#) with a cover letter including 3 references.

[InTERFEWS](#): The new graduate program has been created to integrate food, energy, water education using a systems-based approach that cuts across disciplines, departments and colleges. Contact [here](#) with any questions.

[Research and Monitoring Crew Leader](#): The Colorado Forest Restoration Institute at Colorado State is hiring experienced crew leaders to assist with field research.

[SBEADMR Research and Monitoring Crew Leader](#): The Colorado Forest Restoration Institute at Colorado State is hiring experienced crew leaders to assist with the Spruce Beetle Epidemic Aspen Decline Management Response monitoring field studies.
