

October 30, 2023

Happy Monday, GDPE! I hope you all are staying warm and enjoying the recent snowfall.

We have a couple upcoming events that I want to highlight this week.

1. Our **Resident Distinguished Ecologist Seminar** is this **Wednesday at 4 PM** in the LSC University Ballroom. As always, we will have a pre-seminar tea + cookies and post-seminar drinks + hors d'oeuvres. Come by and hear a great talk from Dr. Mike Antolin!
2. Support the **Front Range Student Ecology Symposium** by attending their [Comedy Show fundraiser](#) on **Wednesday, November 8th at 7:30 PM**. This event is open to all individuals 21+. All ticket proceeds go to FRSES, which will be used for their 30th anniversary conference in February 2024.
3. We will be hosting a **Science Communication workshop** on **Tuesday, November 14th at 12 PM**. Cameron Duke from [MinuteEarth](#) will lead a workshop around science storytelling and will share more with us about his role as a write, director, and narrator for a popular YouTube Channel.

More details regarding these events can be found below.

Safe travels to those heading out to D.C. for the *Entomological Society of America* conference or to Tucson for the *Society for Human Ecology* conference! Don't forget to tag us on social media in your posts!

Have a great week!

Distinguished Ecologist Seminar

Please join GDPE in welcoming our **Resident Distinguished Ecologist, Dr. Mike Antolin** for his talk "These are not your ancestors' plagues and we should have known better". The seminar will be held **Wednesday, November 1st at 4:00pm in the LSC University Ballroom**. Refreshments will be served from 3:30-4:00pm. There will be a reception directly following the seminar at 5:00pm. We hope to see you all there!

Science Communication Workshop

Join us for a Science Storytelling workshop on **Tuesday, November 14th, from 12-1:30pm**. This event will be facilitated by Cameron Duke, a writer, director, and narrator for the popular YouTube channel MinuteEarth.

This event is open to all GDPE members. RSVP not required. Snacks will be provided.

JOBS, FELLOWSHIPS, INTERNSHIPS

Spring Stewardship Institute

Open until filled

SSI is seeking **part time and full time Data Technicians** to assist with upcoming projects. An office-based position is available, as well as one that will involve a combination of field and office work. To apply, send a PDF with a cover letter and resume to our Program Manager, [Izzie Speer](#).

Click [here](#) to learn more.

Spring Stewardship Institute

Open until filled

Laura Shiels of Front Range Community College reached out to us directly to hire adjunct Biology instructors for the Spring 2024 semester. She specifically wanted to recruit folks who have ecology and/or botany background and at least an MS in a biological field. If you are interested, reach out to [Laura](#) for more information.

Postdoctoral Position in Forest Ecology

Deadline November 1, 2023

USGS Sequoia Field Station is currently recruiting for up to **2 positions in forest ecology** including a forest dynamics biologist and a fire and fuels biologist. Click [here](#) to learn more.

Postdoctoral Fellow in Population Biology

Deadline November 1, 2023

The Center for Population Biology at UC Davis invites applications for a **Postdoctoral Fellowship in Population Biology**, broadly defined to include ecology, phylogenetics, comparative biology, population genetics, and evolution. We particularly encourage applications from candidates that have recently completed, or will soon complete, their Ph.D. The position is for two years, subject to review after one year, and can begin as early as July 1, 2024. Click [here](#) to learn more.

Assistant Professor of Ecology

Deadline November 6, 2023

The Department of Integrative Biology at Oklahoma State University invites applications for a **tenure-track Assistant Professor position in Ecology** who works at landscape or larger spatial scales. Click [here](#) to learn more.

Limnology/Aquatic Science Assistant Professor Position

Deadline November 15, 2023

The Department of Watershed Sciences at Utah State University invites applications for a **tenure-track Assistant Professor in any physical or ecological disciplines contributing to Watershed Science**. They seek candidates who conduct innovative, interdisciplinary, and quantitative research that builds on our department's strengths in hydrology, fish ecology, aquatic ecology, wetland ecology, geomorphology, global change biology, climate science, water quality, and restoration of aquatic ecosystems. Disciplinary expertise may include, but is not limited to, limnology, fluvial geomorphology, fluvial hydraulics, ecotoxicology, riparian ecology, water quality, hydrology, restoration of aquatic ecosystems, or any emerging areas of watershed science. The successful candidate will develop a robust, externally funded research program and will teach two to three courses per year at undergraduate and graduate levels. To further the Department's commitment to inclusion and engagement of an increasingly diverse community, we seek candidates who will successfully serve as mentors and role models for students belonging to groups that are historically underrepresented in natural resources and watershed sciences. Click [here](#) to learn more.

EPA Fellowship on Identifying Drivers of Nutrients and Algal Blooms in Rivers, Streams, and Lakes

Deadline November 24, 2023

EPA's Pacific Ecological Systems Division in Corvallis, Oregon, has a new post-MS position available through the Oak Ridge Institute for Science and Education (ORISE). The research participant will collaborate on projects within the Pacific Ecological Systems Division (PESD) that examine the relationships between watershed, climate and human drivers of nutrients and harmful algal blooms in freshwater ecosystems. The goal of this research project is to build understanding of the factors that drive nutrient excess and harmful algal blooms to better predict which water bodies are at risk. This research project will explore how water chemistry, watershed land use and

land cover, lake morphology, and climate interact and relate to nutrient concentrations, cyanobacteria and cyanotoxins in lakes across the US. Providing estimated risk of cyanobacteria blooms in lakes across the country as facilitated by this research would allow the agency and agency partners to better identify which waterbodies need monitoring and potential protection or remediation activities. Click [here](#) to learn more.

Assistant Professor of Insect Biology at University of California Davis

First Review Deadline December 1, 2023

The Department of Entomology and Nematology in the College of Agricultural and Environmental Sciences at the University of California, Davis is recruiting an Assistant Professor of Insect Biology. This is an academic year (9-month), **tenure track Assistant Professor position that includes an appointment in the California Agricultural Experiment Station (AES)**. Faculty members who hold an Agricultural Experiment Station appointment have a responsibility to conduct research and outreach relevant to the mission of the California Agricultural Experiment Station. Participation in outreach programs and performance of University service are also expected. Click [here](#) to learn more.

Ewel Postdoctoral Fellowship in Ecology & Environmental Science

Deadline January 7, 2024

The John J. and Katherine C. Ewel Postdoctoral Fellowship Program in Ecology and Environmental Science in the Tropics and Subtropics will enable a recent doctoral recipient to study tropical or subtropical ecology and environmental sciences at the University of Florida (UF). The Fellow will conduct research for an award period of two years with a UF faculty member in any department, in any subdiscipline of ecology or environmental science.

UF Ph.D. graduates and UF postdocs are not eligible to apply. Citizens of any country may apply. Click [here](#) to learn more.
